## Training and Knowledge Exchange in Microscopy

## Vision Expertise

### Online testing and professional development of specialists

[www.vision-expertise.com](http://www.vision-expertise.com)

Empower your Knowledge in Microscopy

Welcome digital education service

### Community of Professionals and Experts (free subscription)

#### Training

Choose your area of expertise (cytology, hematology, microbiology, histopathology) and take regular tests to assess your knowledge.

#### Knowledge exchange

Write comments and communicate with colleagues. Send over your digital or glass slides to be featured and discussed in the community.

#### Ratings

Track your level and improve your rankings.

## Training and testing of specialists' knowledge (extended subscription)

### Proficiency evaluation

---

Online testing service for laboratories, laboratory quality control centers, advanced training institutes, educational institutions and universities.

### Results

---

The information on test solutions is displayed in real time for each of the participants. On test completion, the examiner and the participant receive statistical reports for evaluation of the results.

### Tests

---

The examiner creates tests which include samples with digital slide and list of participants. Members automatically receive a notification about the new test by e-mail.

### Technologies

---

Only Internet access and a web browser are required for work. Supports PCs and tablets. Automatic e-mail notifications.

## Referrals for online testing and knowledge testing in microscopy

Peripheral blood

Bone marrow

Body fluids

Cervical cytology

Immunocytochemistry

Cytology

STD

Histology

Microbiology

Pre-classification has to be validated by the specialist reviewing the galleries of cells.  
Please check the intended use and the registration in your local regulation.  
Depending on the regulations of the respective region, some products may be used for research purpose only.  
We reserve the right to change specification without notice.
